SPECIFICATIONS**Heavy Duty Pump:**

Vacuum Pump is specially designed to suit Indian power conditions, voltage fluctuations & Indian Currency Conditions. The pressure is optimized to count even the poor currency conditions with ease.

Steel Spindle:

The steel spindle is provided to work on LEAKPROOF AIR SYSTEM. This ensures that the machine counts with rigidity and delivers ultimate performance.

In – built Dust Extractors: The Jumbo size dust extractors ensures huge dust collection, hence reduces frequent break downs of the machine

Hi – Tech Design:

The mechanical design is producing excellent results due to precision cut components with less 0.1mm deviation. Two tier bases for sturdy performance.

Metal Mould Top:

The Top which is Metal mould and is around 6mm thickness sustains transport pressures & hardships. It also give the machine a sturdy outlook.

Disciplined Assembly line:

The highly disciplined assembly line results in perfect production. All components are tested both in Pre assembly and post assembly sections. Components are sourced from Reputed vendors to ensure quality and stability.
